

It's Muir Woods Earth Season!

You're invited to help restore and protect Muir Woods and the Redwood Creek Watershed!

Event Information...

For the last 15 years, groups like yours have removed invasive plants, repaired trails, and planted native plants to help restore and protect the trees, water, fish, and flowers of Redwood Creek. This year, instead of hosting a single "Earth Day" event, we are hosting many groups for different activities throughout a 3-month "Earth Season." Will you join us?

Want to Participate?

Follow these simple steps:

- 1) Review the Earth Season Calendar on the back of this sheet.
- 2) Choose three possible dates that your group would be available.
- 3) Complete the enclosed RSVP card.
- 4) **Mail the RSVP card by December 30, 2004.**

For more information, please contact:

Jeanette at the Redwood Creek Native Plant Nursery:
